

3

We offer our customers solutions tailored to their needs and projects. Use this as a basis for designing your MCT loader.

CONCEPT

For the ultra-compact designed MCT passing through narrow passages is no problem. The design of the telescopic arm close to the front wheels allows maximum lifting power and better visibility for attaching implements / components. 0,96.1,43m 2,45 - 2,78m

MOTOR

The MCT14 is equipped with a 25 hp Yanmar diesel engine or 57 hp optional that meets STAGE 5, EPA Tier IV and four-wheel drive requirements. This ensures stability and efficiency when maneuvering on rough terrain.

LIFTING

The height and force of ISLER MCT's lifting arm has been set to ensure that the vehicle operates reliably in any position. Its impressive lifting capacity reaches up to 1.4 tones and a maximum height of 4.54

SAFETY

The MCT is equipped with a rigid and stable monobloc chassis. Thanks to the balanced center of gravity, excellent stability is guaranteed. In addition, the MCT has the advantage of being equipped with a body that is resistant to snagging and impacts of any kind.

RELIABLE 2 **EFFICIENCY**

MANEUVERABILITY

To ensure the best possible maneuverability in any situation, the MCT has three steering modes and a turning radius of only 1.10 m.

orientation

Four-wheel steering

Very handy in small areas.

Crab-like

Easy to drive around obstacles.

COMFORT

ISLER MCT's cab is mounted on silent blocks, ensuring quick and ergonomic access to the vehicle.

The MCT's dashboard is simple, intuitive, easy to use and can be customised to suit your needs to combine simplicity and efficiency.

The cab can be equipped with various additional options: closed, open, heated, etc. .

ISLER CONNECT® COUPLING

The multifunctional coupling was specially developed by ISLER MCT to simplify the change of working components. You can always couple the tools extremely easily, no matter where and in what position the vehicle is. The ISLER CONNECT coupling automatically compensates for any unevenness in the ground.

The MCT is equipped with a hydraulic lock that can be conveniently operated from the cab.

EASY TO MAINTAIN

The innovative design of the MCT has been specially developed for you to ensure easy and quick maintenance.

EASY TO USE VERSATILE IN USE

COMPACT AND VERSATILE

Our MCT models are extremely compact, making them ideal for maneuvering in narrow, uneven spaces.

If you'd like to find out more, please contact us and we'll arrange a demonstration.

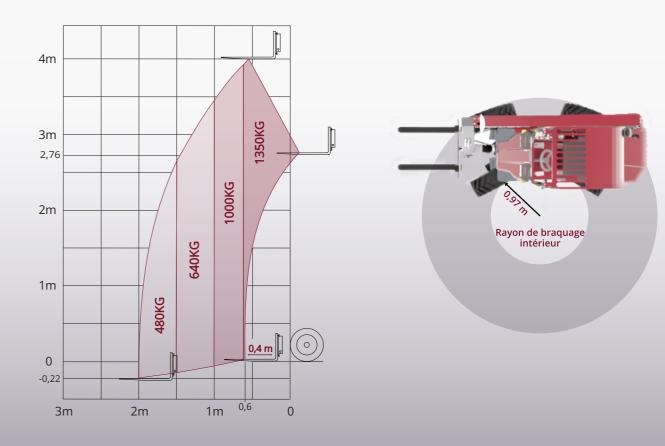

TECHNICAL DATA

	MCT13
Lifting force	1350 kg
Tipping load	1700 kg
Lifting height max.	4,20 m
Lifting height under accessory	4 m
Engine type	Stage 5
Power	25 HP
engine torque	105 Nm à 1500 tour/min
Drive	18 km/h
Driving speed	Hydrostatic
Hydraulic pump flow rate	Dès 44 L/min
Fuel tank	30 L
Empty weight	2000 kg
Overall width wheel 6x16	0,96
Overall width wheel 10.5/75-15.3	1,17m
Height over all	1,96 m
Length over all	2,45 m
Turning radius (inside)	0,97 m
Ground clearance	0,26 m

EASY TO USE VERSATILE IN USE

STANDARD EQUIPMENT

Driver's cab

Open cabin with window on the right side

Comfortable seat with safety belt

Charge level indicator and motion interrupt

Lighting

LED working lights on the cab roof, 2 in the front and 1 in the rear

Transmission

Foot gas pedal

Evenly distributed drive on all 4 wheels

Proportional overspeed governor (slow speed device)

Steering settings (2-wheel front steering, 4-wheel steering, crab steering)

Service brake on all 4 wheels via the low-speed drive device

Parking brake with discs on the front axle

Loading device

Telescopic arm with hydraulic parallelogram

Quick coupler with hydraulic locking of the attachment from the cab

ISLER CONNECT attachment system fixed

Hydraulic system

Mechanical joystick with direction control

2 Mechanical controls for telescoping and accessories

Trailer hitch

EQUIPEMENTS OPTIONS

Operator`s cab

Heated cab with safety glass in front, rear window and roof

Front windshield wiper

Front windshield wiper

Complete radio equipment

Lighting

LED working lights on the telescopic arm, at the front

Rotating beacon

Road approval

Road lighting complies with Swiss legislation

Road approval Switzerland

License plate holder front and rear

Attachment for the charger

Quick coupling hydraulic hoses for the attachments (Mach 2)

ISLER CONNECT mobile coupling

EURO interface

Hydraulic system

Electronic joystick with 4 proportional functions

Joystick with 2 electrical and 2 mechanical functions

Heater / cooler for hydraulic oil

Additional hydraulic pump for special accessories

Various

10

RAL special paint

Reversing warning sound (as per country specific regulations)

2 travel speeds

PNEUMATICS

The tires of the MCT can be adapted to the working environment. Below is a selection of compatible models:

STANDARD

10.5/75-15.3 width 1,17 m

width 0,96 m width 1,17 m

GREEN SPACES

31/15.5-15 width 1,43 m

ACCESSORIES

STANDARD

PUBLIC WORK

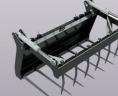

AGRICULTURE

The list of accessories is not complete ... **EFFICIENT**
